EXPERIENCE

Graduate Development Program - Technology Track

Public Investment Fund (PIF) | Full-time | Remote   Aug 2020 - present
- Currently interning at NEOM (PIF subsidary) with technology team
- Worked with / Learned about Linux OS server administration (with Red Hat), Windows OS server administration (with Microsoft), networking (with CompTIA), virtualization (with VMware), cybersecurity (with CompTIA), and computer hacking (with EC-Council)

Full-Stack Software Engineer

Fiskkit | Part-time | Remote   Dec 2019 - present
- Worked in Agile environment with a team of 5 developers and 1 designer to optimize development, testing, and deployment. Requiring continuous communication and work overlap
- Led screen-responsiveness of entire website by utilizing CSS media queries and React, increasing mobile users proportion by +23%
- Made 50+ (ongoing) back-end and front-end enhancements including mission-critical bug fixes that caused entire page errors
- <u>Leveraged knowledge</u> in (hard) React, Redux, Sass, Laravel, MySQL, Docker, (soft) teamwork, and problem-solving

Full-Stack Software Engineering Student

App Academy | Full-time | San Francisco, CA   Jun 2019 - Dec 2019
- Participated in daily pair-programming sessions involving many technical challenges ranging from database abstraction layer, data access layer, to the presentation layer. Requiring continuous learning, communication, and switching in coding environments
- Completed 17 intensive 90-100 hour work weeks involving lectures, weekly meetings, daily standup meetings, pair-programming, individual programming, technical reading, and presentation, resulting in significant increase in programming abilities
- <u>Leveraged knowledge</u> in (hard) SQL, MongoDB, Ruby on Rails, Express, React, Redux, Sass, CSS, RSpec, Capybara (soft) communication, teamwork, adaptability, problem-solving, time management, leadership, and attention to detail

Ettihad Cultural Center (ECC) Communication Representative

Oregon State University | Part-time | Corvallis, OR   Aug 2017 - Jun 2018
- Organized 10+ events, including the Ettihad Cultural Festival, which hosted 2000+ walking attendees. Requiring communication with hundreds of contacts, event planning, weekly meetings, and lots of teamwork
- Directed team of 15 people through rehearsals and performance in Ettihad Cultural Festival, resulting in error-free performance
- Started programming in Ruby and JavaScript to solve daily abstract problems involving the cultural center
- <u>Leveraged knowledge</u> in (hard) Ruby, JavaScript, VBA (soft) communication, public speaking, event planning, teamwork, and leadership

SKILLS

<u>Proficient</u>: **JavaScript, Ruby, PHP, SQL, PostgreSQL, MongoDB, Mongoose, Ruby on Rails, Express, Laravel, TDD, Mocha, Chai, RSpec, AJAX, React, Redux, Git, Github, HTML, CSS, Sass, jQuery, Heroku.** <u>Familiar</u>: **Python, Docker, Amazon S3, Pandas, NumPy, Matplotlib, Canvas, Web Scraping, Data Analysis, Data Visualization, Visual Basic for Applications (VBA), D3.js**

EDUCATION

Executive Education	UC Berkeley	|	Fall 2020
Software Engineering	App Academy	|	Summer 2019
BS Finance	Oregon State University	|	2014 - 2019

PROJECTS

Jewely - Ruby on Rails, PostgreSQL, React / Redux   GitHub
An Etsy inspired mock-marketplace that specializes in allowing users to buy and sell jewelry
- Merged Redux with React and created global state for faster site performance, and easier frontend development process
- Integrated multi-photo attachment feature using Amazon S3, JSON JBuilder, and Ruby on Rails' Active Storage for better UI/UX
- Utilized Active Record and Action Controller for fetching and processing data through RESTful APIs

Poll App (group project: 3 developers) - MongoDB, Mongoose, Experss.js, React (hooks, context), Material UI   GitHub
A polling app where users submit two pictures for their friends to vote on
- Collaborated with 2 other full-stack developers and team lead in an Agile environment using ZenHub for ticket management
- Wrote integration tests (35 specs) using Mocha, Chai, and in-memory mock-database for better app maintainability
- Led project presentations during evaluations
